EXPERIENCE

Software Engineer

📅 Dec 2022 – Ongoing

by The Lindemans

📍 Glendale, AZ

- Developed and maintained cloud-based systems
- Built and optimized backend services using Python and AWS to improve system performance and scalability
 - Developed RESTful APIs and RPCs for integration across cross-functional teams, improving communication between systems

- Worked with data frameworks to optimize data pipelines
- Implemented and managed data processing pipelines using Spark and Kafka, ensuring efficient data flow and analysis
 - Collaborated with the data analytics team to provide insights into user behavior and system performance

Information Technology Support Specialist

📅 Jun 2022 – Ongoing

Tolleson Union High School District

📍 Avondale, AZ

- Designed and implemented cloud-based infrastructure solutions
- Led efforts to migrate on-premise systems to AWS, improving scalability and reducing operational costs by 20%
 - Built CI/CD pipelines to automate deployments and streamline the development process, reducing deployment time by 30%

- Collaborated with cross-functional teams to improve system performance
- Worked closely with the product and engineering teams to ensure that system changes met business requirements and improved the overall user experience
 - Provided technical guidance and mentorship to junior engineers, helping them adopt best coding practices and improve their skills

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

📅 Expected May 2026

Arizona State University

📍 Online

- Relevant coursework: Cloud Infrastructure, Python Programming, Data Analytics, System Design

Associate of Science in Computer Science

📅 August 2024

Rio Salado College

📍 Tempe, AZ

- Graduated Summa Cum Laude with 3.9 GPA

SUMMARY

Software engineer with over 2 years of experience in building and maintaining cloud-based systems using Python and AWS. Proficient in data frameworks such as Spark, Kafka, and Kubernetes, with a passion for delivering high-quality code to improve system performance and user experience. Strong collaborator with cross-functional teams, providing technical leadership and mentoring to junior engineers. Adept at problem-solving and driving positive outcomes in fast-paced environments.

TOOLS

- Python
- Spark
- Kubernetes
- CI/CD Pipelines
- Cross-functional Collaboration
- AWS (EC2, S3, Lambda)
- Kafka
- Airflow
- Data Analytics
- RPCs

SKILLS

- Software Engineering
- Data Frameworks
- Technical Leadership
- System Design
- Technical Documentation
- Cloud Services
- Distributed Systems
- Cross-Functional Teams
- Code Reviews
- Agile Development
