

## SUMMARY

Senior Solutions Engineer with expertise in SaaS solutions, cloud platforms, and technical validation processes. Experienced in working with enterprise clients to deliver scalable and innovative solutions. Proficient in AWS, monitoring tools, and microservices architectures. Skilled in customer collaboration and product demonstrations, with a strong focus on building lasting relationships and driving business value through technology.

## EXPERIENCE

<div>Solutions Engineer / Developer</div> <div><div> Dec 2022 – Ongoing</div><div><div>Led technical projects involving SaaS solutions and cloud architecture (AWS)</div><div><ul style="list-style-type: none"><li>Delivered technical demonstrations and product evaluations to ensure customer success.</li><li>Collaborated with engineering and product teams to improve solutions based on customer feedback.</li></ul></div></div></div>	<div>by The Lindemans, LLC</div> <div><div> Remote</div><div><div>Managed technical validations and Proof of Value (POV) phases</div><div><ul style="list-style-type: none"><li>Guided clients through complex SaaS implementations in multi-tenant architectures.</li><li>Provided hands-on support with monitoring tools and open-source collections (FluentD, Telegraf).</li></ul></div></div></div>
<div>Technology Support Specialist</div> <div><div> Jun 2022 – Ongoing</div><div><div>Provided technical support and product demonstrations for SaaS applications</div><div><ul style="list-style-type: none"><li>Supported infrastructure management, including servers and networking devices.</li><li>Assisted in microservices and container-based architecture deployments.</li></ul></div></div></div>	<div>Tolleson Union High School District</div> <div><div> Remote</div><div><div>Collaborated across departments to align technical solutions with business goals</div><div><ul style="list-style-type: none"><li>Used monitoring tools such as Datadog and New Relic to improve system performance.</li><li>Managed security tools, addressing endpoint security and incident response challenges.</li></ul></div></div></div>

## EDUCATION

<div>Bachelor of Science in Technological Entrepreneurship and Management</div> <div><div> Expected May 2026</div><div><ul style="list-style-type: none"><li>4.0 GPA   Coursework includes Cloud Computing, Microservices, and SaaS Development.</li></ul></div></div>
---

## SKILLS

AWS / GCP / Azure

SaaS Solutions / Multi-tenant Architectures

Proof of Value (POV)

Security Tools / Incident Response

Monitoring Tools: FluentD, Datadog, New Relic

Microservices / Kubernetes / Docker

Cloud Infrastructure

Agile Development
