

ENOCH LINDEMAN

Technology Support Specialist / Help Desk
Cofounder & Owner, by The Lindemans, LLC

✉ enoch@lindeman.family ☎ (619) 333-8221
in www.linkedin.com/in/enoch-lindeman 📍 San Diego, CA

SUMMARY

Network Specialist and Systems Engineer with over 6 years of experience in **network design**, **hardware and software integration**, and **systems engineering**. Strong expertise in **IPv6 protocol**, quality assurance, and designing integrated IT solutions for high-performance computing environments. Skilled in analyzing user needs, developing software solutions, and leading system-level testing to ensure optimal network performance and operational efficiency.

EXPERIENCE

Network Specialist / Systems Engineer

Tolleson Union High School District

📅 Jun 2022 – Ongoing

📍 San Diego, CA

- Led the design, integration, and implementation of network systems
- Managed integration of **IPv6** and other networking protocols to enhance system performance and meet modern connectivity requirements.
 - Designed and implemented high-performance computing environments, optimizing hardware and software integration.

- Performed system-level testing and quality assurance reviews
- Conducted comprehensive quality assurance reviews, ensuring the compatibility and performance of new and existing software products.
 - Developed integrated system test strategies to validate system performance and compliance with operational specifications.

Owner & Network Engineer

by The Lindemans

📅 Dec 2022 – Ongoing

📍 San Diego, CA

- Provided IT solutions for client networks and high-performance computing environments
- Led network and systems integration projects for business and industrial clients, focusing on optimizing operational efficiency and scalability.
 - Designed software solutions for custom applications, enhancing operational capabilities through tailored IT solutions.

- Collaborated with stakeholders to implement client-focused IT strategies
- Analyzed user needs and developed software solutions to optimize business operations and IT performance.
 - Coordinated with cross-functional teams to deliver integrated hardware and software solutions that aligned with business goals.

Mission Technology Specialist

The Church of Jesus Christ of Latter-Day Saints

📅 May 2020 – May 2022

📍 Syracuse, NY

- Developed software solutions and network systems for distributed applications
- Led the integration of network protocols, including **IPv6**, into distributed computing systems, improving system reliability and connectivity.
 - Developed test strategies and performed system-level testing, ensuring smooth operation across the network infrastructure.

- Supported the design and implementation of IT solutions
- Provided technical support for high-performance computing systems and ensured system efficiency through comprehensive testing and diagnostics.
 - Analyzed and designed database systems, improving operational performance through software customization.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

Arizona State University

📅 Expected May 2026

📍 Online

- Current GPA: 4.0
- Coursework includes network systems design, high-performance computing, and database integration.

Associate of Science in Computer Science

Rio Salado College

📅 August 2024

📍 Tempe, AZ

- Graduated Summa Cum Laude, GPA: 3.9
- Specialized in network engineering, IPv6 integration, and IT solutions for high-performance computing.

SKILLS

- IPv6
- High-Performance Computing
- Network Design & Integration
- Systems Engineering
- Software Integration
- Quality Assurance
- Systems Testing & Validation
- Database Design
- Microsoft Office Suite (Word, Excel, PowerPoint)
- Cross-functional Team Collaboration
- Client-Focused IT Solutions
