

ENOCH LINDEMAN

Senior Software Implementation Engineer
Cofounder & Owner, by The Lindemans, LLC

✉ enoch@lindeman.family ☎ (619) 333-8221
🌐 www.linkedin.com/in/enoch-lindeman 📍 San Diego, CA

EXPERIENCE

Software Implementation Engineer

📅 Jun 2022 – Ongoing

Tolleson Union High School District

📍 Avondale, AZ

Implemented WMS and WES solutions for a large-scale educational institution

- Integrated software systems with hardware, including PLC-based controls, to automate key workflows
- Led the configuration and commissioning of new software systems, ensuring smooth deployment and minimal downtime

Provided end-user training and ongoing technical support

- Delivered training sessions for clients, explaining system features, functionality, and troubleshooting techniques
- Worked closely with development teams to resolve issues identified during system testing and implementation

Owner & Software Developer

📅 Dec 2022 – Ongoing

by The Lindemans

📍 Glendale, AZ

Led the development and implementation of custom warehouse management applications

- Designed and deployed warehouse software solutions integrated with PLC systems to improve operational efficiency
- Conducted on-site system configuration and testing, ensuring compliance with client requirements and system standards

Collaborated with clients on custom software implementations

- Provided ongoing status updates to project leadership and participated in milestone testing to ensure system functionality
- Supported the retrofitting and upgrading of legacy systems to modern WES solutions

Mission Technology Specialist

📅 May 2020 – May 2022

The Church of Jesus Christ of Latter-Day Saints

📍 Syracuse, NY

Managed the implementation of technology solutions for a distributed user base of over 3,000 users

- Configured and commissioned new software solutions to support remote operations and data management
- Provided remote and on-site training to users on system operations, troubleshooting, and feature usage

Collaborated with cross-functional teams to deliver software solutions

- Worked with system developers to resolve software bugs and improve the functionality of deployed systems
- Maintained communication with project leadership, providing status updates and ensuring timely project completion

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

📅 Expected May 2026

Arizona State University

📍 Online

SUMMARY

Senior Software Implementation Engineer with experience in implementing and integrating WMS, WCS, and WES solutions in warehouse environments. Skilled in PLC-based systems, system commissioning, and end-user training. Proficient in Linux, Python, and networking, with a strong ability to collaborate with clients and project teams to deliver high-quality, functional solutions.
