Hiring Management Team
NBCUniversal

To whom it may concern:

I am excited to apply for the Associate Software Engineer position at NBCUniversal. With hands-on experience in CI/CD pipeline development, scripting, and cloud infrastructure management, I am eager to contribute to NBCUniversal's Platform Development and Engineering Experience (PDEX) team. My background aligns well with your focus on automation, release engineering, and software development best practices.

In my role as a Software Developer at by The Lindemans, I have designed and implemented CI/CD pipelines using GitHub Actions and Jenkins, supporting automated testing and deployment for enhanced software delivery. I have developed Bash and Python scripts to automate processes and manage deployments, ensuring reliability across systems. My experience also includes managing version control, supporting containerized applications with Docker, and maintaining clear documentation for deployment processes.

As an IT Support Specialist, I assisted with software releases and system administration, performing tasks such as Linux user management, script execution, and basic troubleshooting. I have collaborated with teams in fast-paced environments, applying Agile principles to ensure smooth integration and project delivery. My problem-solving skills, attention to detail, and passion for learning make me a great fit for the dynamic environment at NBCUniversal.

I am particularly excited about this opportunity because of NBCUniversal's commitment to innovation and its collaborative culture. My technical expertise, strong communication skills, and eagerness to learn align with the requirements of the Associate Software Engineer role, and I am excited about the possibility of contributing to your team.

I would welcome the opportunity to discuss how my experience aligns with the Associate Software Engineer role at NBCUniversal. Thank you for considering my application. I look forward to the possibility of contributing to your team and supporting your mission.

Respectfully,
Enoch Lindeman
