🌐 www.linkedin.com/in/enoch-lindeman    📍 San Diego, CA

## SUMMARY

Software Developer with expertise in Java, JavaScript, and SQL, focused on developing custom applications, system integration, and database management. Skilled in system analysis, testing, and maintenance, with a passion for creating solutions that improve operational efficiency and enhance user experiences.

## EXPERIENCE

### Owner & Software Developer

by The Lindemans

📅 Dec 2022 – Ongoing

📍 Glendale, AZ

- Developed personalized wellness app
- Designed, developed, and maintained a wellness app using Java, SQL, and JavaScript for web and mobile platforms
  - Conducted system analysis to gather and interpret user requirements, and created comprehensive technical documentation for the application
  - Developed database queries and functions to optimize data storage and retrieval for efficient user access

- Established online media & retail presence
- Created web-based services using JavaScript, HTML5, and SQL, integrating middleware solutions for seamless data flow between web services and databases
  - Managed codebase using GitHub version control and collaborated with other developers to ensure high-quality code and adherence to development standards
  - Led quality assurance testing to identify and resolve bugs, ensuring smooth application performance and user experience

### Information Technology Support Specialist

Tolleson Union High School District

📅 Jun 2022 – Ongoing

📍 Avondale, AZ

- Developed custom internal support app
- Designed and implemented an internal support app using Java and SQL, streamlining user request handling and improving resolution times by 90%
  - Conducted system analysis and requirements gathering to align application functionality with organizational needs
  - Ensured application documentation was complete and accurate for future maintenance and updates

- Led system maintenance and support operations
- Performed regular updates and maintenance on internal systems, identifying areas for process improvement and system optimization
  - Collaborated with technical teams and stakeholders to develop solutions that met business and technical requirements

## EDUCATION

### Bachelor of Science in Technological Entrepreneurship and Management

Arizona State University

📅 Expected May 2026

📍 Online

- 4.0 GPA, focused on software development, system analysis, and database management

### Associate of Science in Computer Science

Rio Salado College

📅 August 2024

📍 Tempe, AZ

- Graduated Summa Cum Laude with 3.9 GPA, specializing in Java, SQL, and web application development
