

## SUMMARY

Results-driven Software Development Manager with 8+ years of hands-on experience in Oracle, .NET, and Java, leading agile development teams and driving innovation in ERP and enterprise software systems. Adept at enhancing existing systems, leading integrations, and fostering a culture of continuous improvement. Strong background in full stack development, product operation monitoring, and DevOps practices. Focused on delivering high-performance, scalable solutions in aviation and mission-critical environments.

## EXPERIENCE

<h3>Software Development Manager</h3> <div> Jun 2018 – Ongoing</div> <div><div>Led full stack development and system integration efforts<ul style="list-style-type: none"><li>Managed a cross-functional team of developers in maintaining and enhancing Oracle-based ERP solutions, working with C, ASP .NET, and Java.</li><li>Directed the integration of legacy systems into modern platforms, increasing system efficiency and user experience.</li></ul></div><div><div>Promoted agile best practices and DevOps culture<ul style="list-style-type: none"><li>Implemented CI/CD pipelines, streamlining the deployment process and reducing time-to-market by 20%.</li><li>Collaborated closely with product owners to define technical requirements and manage stakeholder expectations.</li></ul></div></div></div>	<div>Tolleson Union High School District</div> <div> Avondale, AZ</div>
<h3>Lead Developer &amp; Architect</h3> <div> Dec 2014 – Ongoing</div> <div><div>Architected and managed full stack development for ERP systems<ul style="list-style-type: none"><li>Led the development of a custom ERP solution for aviation clients, optimizing backend processing with PL/SQL and Oracle database systems.</li><li>Enhanced scalability and performance through OOD patterns and architectural best practices.</li></ul></div><div><div>Built and deployed applications using modern and legacy technologies<ul style="list-style-type: none"><li>Worked with C, ASP .NET, and Java to create enterprise-grade software, integrating with external systems via REST APIs.</li><li>Developed test automation strategies, significantly improving code quality and reducing post-deployment defects by 30%.</li></ul></div></div></div>	<div>by The Lindemans</div> <div> Glendale, AZ</div>
<h3>Senior Software Developer</h3> <div> May 2013 – May 2015</div> <div><div>Developed aviation-related enterprise applications<ul style="list-style-type: none"><li>Led development efforts on an aviation monitoring and compliance tracking system using Oracle and Java.</li><li>Implemented system-level performance improvements, decreasing processing times by 40%.</li></ul></div><div><div>Collaborated with cross-functional teams to optimize performance<ul style="list-style-type: none"><li>Introduced agile methodologies to streamline project timelines and improve team collaboration across distributed teams.</li></ul></div></div></div>	<div>The Church of Jesus Christ of Latter-Day Saints</div> <div> Syracuse, NY</div>

## EDUCATION

<h3>Bachelor of Science in Computer Science</h3> <div> Graduated May 2010</div> <div><ul style="list-style-type: none"><li>Specialization in Software Engineering and Distributed Systems.</li></ul></div>	<div>Arizona State University</div> <div> Tempe, AZ</div>
---	--

## SKILLS

Oracle (PL/SQL)

C#

ASP .NET

Java

Delphi (Basic)

DevOps / CI/CD

Agile / Scrum

Test Automation

REST APIs

Object-Oriented Design (OOD)
