Hiring Management Team
Ascendion

To whom it may concern:

I am excited to apply for the L2 Support Engineer position at Ascendion. With experience in application and production support, BI dashboard management, and front-end technologies, I am eager to contribute to Ascendion's mission of delivering innovative digital solutions. My background in troubleshooting, data analysis, and user experience aligns well with the requirements of this role.

In my role as an IT Support Specialist at Tolleson Union High School District, I managed Qlik Sense dashboards, supported application issues, and ensured high system availability. I collaborated with diverse teams to resolve complex technical issues, improve data models, and maintain effective communication with users. I have also worked extensively with front-end technologies, building and maintaining UI components using React, JavaScript, and HTML/CSS.

As a Front-End Specialist at by The Lindemans, I developed interactive UI components, managed software production lifecycles, and provided technical support for application deployment. I focused on enhancing user experience and resolving front-end issues, maintaining system reliability and improving performance.

I am particularly excited about this opportunity because of Ascendion's commitment to transforming digital engineering for enterprise clients. My technical skills, problem-solving abilities, and passion for supporting innovative solutions make me a great fit for your team.

I would welcome the opportunity to discuss how my experience aligns with the L2 Support Engineer role at Ascendion. Thank you for considering my application. I look forward to the possibility of contributing to your team and supporting your mission.

Respectfully,
Enoch Lindeman
