EXPERIENCE

Python Developer / Backend Engineer

📅 Dec 2022 – Ongoing

by The Lindemans

📍 Glendale, AZ

- Developed backend systems and REST APIs using Python
- Built and maintained backend services with Flask, ensuring efficient data movement and API performance
 - Developed containerized applications using Docker and Docker Compose, streamlining deployment processes

- Collaborated with cloud infrastructure teams for deployment
- Deployed containerized applications to cloud environments, ensuring high availability and system scalability
 - Integrated REST APIs with external services to enable real-time data synchronization and processing

Information Technology Support Specialist

📅 Jun 2022 – Ongoing

Tolleson Union High School District

📍 Avondale, AZ

- Developed Python scripts for backend automation
- Automated data migration processes using Python, ensuring data integrity and reducing processing time by 30%
 - Collaborated with the IT team to deploy applications using Docker and manage containerized environments

- Ensured system reliability through version control and testing
- Implemented version control with Git to track code changes and maintain project consistency
 - Conducted unit testing for Python scripts to ensure robust functionality and error handling

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

📅 Expected May 2026

Arizona State University

📍 Online

- Relevant coursework: Cloud Infrastructure, Backend Development, API Design, Software Engineering

Associate of Science in Computer Science

📅 August 2024

Rio Salado College

📍 Tempe, AZ

- Graduated Summa Cum Laude with 3.9 GPA

SUMMARY

Python Developer with over 3 years of experience in backend development, data scripting, and API design. Proficient in Flask for API development and deploying containerized applications using Docker and Docker Compose. Strong understanding of REST APIs and cloud infrastructure, with hands-on experience in moving data efficiently across systems. Adept at working in Agile environments and collaborating with cross-functional teams to deliver scalable, reliable solutions.

TOOLS

- Python
- Docker
- REST APIs
- Agile Methodologies
- Data Scripting
- Flask
- Docker Compose
- Git
- Cloud Infrastructure
- Kubernetes (EKS)

SKILLS

- Backend Development
- API Development
- Version Control
- Problem Solving
- Independent Work
- Remote Team Collaboration
- Containerization
- Cloud Deployment
- Data Movement
- Collaborative Development
