

ENOCH LINDEMAN

Software Engineer / Backend Developer / DevOps Specialist

 enoch@lindeman.family  (619) 333-8221
 www.linkedin.com/in/enoch-lindeman  San Diego, CA

EXPERIENCE

Information Technology Support Specialist Tolleson Union High School District
 Jun 2022 – Ongoing  Avondale, AZ

- Oversaw 1:1 deployment of 3,000 devices on campus

 - Was first point of contact for all issues regarding internet-connected devices on large high school campus
 - Ensured seamless integration of devices, troubleshooting, and issue resolution to maintain network uptime and efficiency
- Created support app for 14,000 users in district

 - Built Microsoft Power App with O365 and SharePoint data integrations, reducing user information requests by over 90%
 - Automated backend systems, optimizing data delivery and response times, aligning with Agile methodologies

Owner & Software Developer by The Lindemans
 Dec 2022 – Ongoing  Glendale, AZ

- Developed personalized wellness app

 - Designed cloud-based microservices architecture for a chronic illness management app, iterating through user feedback
 - Integrated REST APIs for data retrieval and user authentication, adhering to privacy and security standards
- Automated CI/CD processes

 - Developed Terraform scripts to automate infrastructure setup, reducing deployment time by over 30%
 - Implemented Docker containers to streamline development environments and ensure consistent application deployment

Mission Technology Specialist The Church of Jesus Christ of Latter-Day Saints
 May 2020 – May 2022  Syracuse, NY

- Oversaw online transition of teaching

 - Led efforts to support 3,000 users and devices transitioning from in-person to remote learning
 - Leveraged cloud services to maintain consistent uptime during transition, ensuring continuity of mission operations
- Systemized labor-intensive menial tasks

 - Automated recurring tasks using PowerShell scripting and cloud automation tools, saving hundreds of hours annually
 - Increased volunteer time utilization through improved task classification systems

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management Arizona State University
 Expected May 2026  Online

- 4.0 GPA, with coursework in Agile methodologies, data structures, and backend development

Associate of Science in Computer Science Rio Salado College
 August 2024  Tempe, AZ

- Graduated Summa Cum Laude with 3.9 GPA, focused on cloud computing and software development

SUMMARY

Software engineer with experience in developing scalable backend systems, cloud-based microservices, and DevOps pipelines. Skilled in Python, Java, REST APIs, and automation tools such as Terraform and Azure Pipelines. Dedicated to creating innovative solutions in cloud environments, and experienced in Agile practices, ensuring efficient project delivery.

TOOLS

- Python

Linux

REST APIs

Google Cloud

Java

CloudFormation

GitHub
- Bash

Terraform

Azure Pipelines

Microsoft Azure

C#

Docker

YAML

PROGRAMS

- Google Cloud

Terraform

Docker

Visual Studio Code

Google Colab
- Microsoft Azure

CloudFormation

VMWare VirtualBox

Anaconda

Google Apps Scripts
