

ENOCH LINDEMAN

Senior Full-Stack Engineer / Software Developer
Cofounder & Owner, by The Lindemans, LLC

✉ enoch@lindeman.family ☎ (619) 333-8221
🌐 www.linkedin.com/in/enoch-lindeman 📍 San Diego, CA

SUMMARY

Senior Full-Stack Engineer with over 5 years of experience building scalable, high-performance systems using **Java**, **JavaScript**, and **cloud technologies**. Adept at designing feature-rich user experiences and optimizing backend services. Collaborative leader skilled in mentoring engineers and fostering an inclusive development culture. Experienced with Agile methodologies to deliver impactful solutions that meet business needs.

EXPERIENCE

Senior Full-Stack Engineer Tolleson Union High School District
📅 Jun 2022 – Ongoing 📍 San Diego, CA

- Led design and development of full-stack applications for internal tools
 - Architected Java-based backend services and integrated JavaScript frameworks for user-facing applications, improving system performance by 35%.
 - Collaborated closely with product owners and designers to build user-friendly interfaces that meet business requirements.
- Mentored junior developers and promoted engineering best practices
 - Coached team members on software development best practices, resulting in a 20% improvement in code quality and test coverage.
 - Introduced Agile workflows to streamline feature development and delivery, leading to more predictable project timelines.

Owner & Full-Stack Developer by The Lindemans
📅 Dec 2022 – Ongoing 📍 San Diego, CA

- Designed and built full-stack web applications for e-commerce platform
 - Developed the backend in **Java**, using RESTful APIs for integration with third-party services.
 - Integrated **Ember.js** on the frontend to provide dynamic, responsive user interfaces, resulting in a 25% increase in customer engagement.
- Managed cloud infrastructure for scalable web applications
 - Leveraged **AWS** to deploy and scale applications, improving server response times by 15%.
 - Implemented automated CI/CD pipelines to ensure smooth deployments and reduce release cycle times by 40%.

Mission Technology Specialist The Church of Jesus Christ of Latter-Day Saints
📅 May 2020 – May 2022 📍 Syracuse, NY

- Developed backend services in **Java** for cross-functional applications
 - Created modular backend systems, improving scalability and maintainability across multiple platforms.
 - Integrated API-based services for real-time data processing, improving application response times by 20%.
- Collaborated with product managers and engineering teams
 - Worked with cross-functional teams to gather requirements and deliver solutions that aligned with business goals.
 - Emphasized clean code practices and automated testing to enhance product quality and maintainability.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management Arizona State University
📅 Expected May 2026 📍 Online

- Current GPA: 4.0
- Coursework includes full-stack web development, database design, and cloud computing.

Associate of Science in Computer Science Rio Salado College
📅 August 2024 📍 Tempe, AZ

- Graduated Summa Cum Laude, GPA: 3.9
- Focused on Java backend development, cloud infrastructure, and frontend frameworks.
