

ENOCH LINDEMAN

Software Developer / Python Cloud Expert
Agile Full-Stack Development Specialist

✉ enoch@lindeman.family ☎ (619) 333-8221
in www.linkedin.com/in/enoch-lindeman 📍 San Diego, CA

SUMMARY

Software Developer with over 5 years of experience in Python development, cloud-based applications, and Agile methodologies. Skilled in full-stack development, system optimization, and leading small teams to deliver high-quality software. Passionate about building scalable, efficient solutions that make a positive impact on public service.

EXPERIENCE

Owner & Software Developer

by The Lindemans
📍 Glendale, AZ

📅 Dec 2022 – Ongoing

Developed personalized wellness app

- Led the design, development, and deployment of a cloud-based wellness app using AWS, Python, and PostgreSQL
- Utilized Agile methodology to manage development sprints, collaborated with cross-functional teams, and iterated on user feedback
- Conducted unit testing and performance optimization, improving system efficiency by 30%

Established online media & retail presence

- Built and maintained e-commerce platform, leveraging full-stack development skills in Python, JavaScript, and REST APIs
- Managed CI/CD pipelines and version control to ensure smooth deployment cycles and code quality
- Mentored junior developers, providing guidance on best coding practices and cloud infrastructure management

Information Technology Support Specialist

Tolleson Union High School District
📍 Avondale, AZ

📅 Jun 2022 – Ongoing

Led development of custom support app

- Designed and coded a Microsoft Power App integrated with O365, improving user support and reducing request times by 90%
- Collaborated with stakeholders to gather requirements, conducted code reviews, and iterated on technical solutions
- Participated in all stages of Agile scrum meetings, including sprint planning and retrospectives

Oversaw technical support operations

- Diagnosed and resolved escalated technical issues related to system performance, user accounts, and network connectivity
- Conducted peer testing of functional changes and wrote unit tests to ensure code quality and performance

Mission Technology Specialist

The Church of Jesus Christ of Latter-Day Saints
📍 Syracuse, NY

📅 May 2020 – May 2022

Led digital transition of remote teaching platforms

- Led the transition to remote learning, utilizing cloud services and Python scripts to automate processes and improve user experience
- Implemented system-wide changes based on user feedback and provided technical documentation for seamless adoption

Supported over 3,000 users

- Delivered technical solutions to remote users, improving system reliability and reducing downtime by 25%
- Collaborated with cross-functional teams to ensure successful project delivery within scope and on time

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

Arizona State University
📍 Online

📅 Expected May 2026

- 4.0 GPA, focused on software development, cloud computing, and Agile project management

Associate of Science in Computer Science

Rio Salado College
📍 Tempe, AZ

📅 August 2024

- Graduated Summa Cum Laude with 3.9 GPA, specializing in Python, software architecture, and system analysis
