

# ENOCH LINDEMAN

Java Developer / Cloud-Native Engineer

✉ enoch@lindeman.family    ☎ (619) 333-8221  
in www.linkedin.com/in/enoch-lindeman    📍 San Diego, CA

## SUMMARY

I am a dedicated software engineer with a strong focus on developing enterprise-grade applications using Java, Spring Boot, and Hibernate. I specialize in creating reliable, scalable solutions for mission-critical environments, with a passion for simplifying complex workflows and supporting cross-functional collaboration to ensure quality, usability, and performance.

## EXPERIENCE

### Information Technology Support Specialist

📅 Jun 2022 – Ongoing

Oversaw 1:1 deployment of 3,000 devices on campus

- Provided technical support and troubleshooting for all internet-connected devices across a high school campus
- Managed deployment, ensuring robust performance of critical educational applications

Tolleson Union High School District

📍 Avondale, AZ

Developed Microsoft Power App for 14,000 users in district

- Streamlined support workflows with automated ticketing and response systems
- Reduced manual workload by over 90%, enhancing response time and overall service quality

### Owner & Software Developer

📅 Dec 2022 – Ongoing

Developed personalized wellness app

- Led full-stack development of a health app using RESTful APIs and cloud integration
- Aimed for alpha prototype release in January 2025, with integrated user feedback at each stage

by The Lindemans

📍 Glendale, AZ

Established e-commerce platform

- Built an automated CI/CD pipeline, reducing deployment overhead by 80%
- Increased efficiency in application updates and bug fixes, accelerating the product release timeline

### Mission Technology Specialist

📅 May 2020 – May 2022

Managed technology transition for 3,000 users

- Supported remote education by providing technical solutions that enhanced user experience across various platforms
- Automated repetitive tasks to improve operational efficiency, cutting manual work by 75%

The Church of Jesus Christ of Latter-Day Saints

📍 Syracuse, NY

Led system optimization initiatives

- Created automated scripts to manage cloud-based resources and optimize system performance
- Implemented tools that improved user data security and reduced incidents by 50%

## EDUCATION

### Bachelor of Science in Technological Entrepreneurship and Management

📅 Expected May 2026

- 4.0 GPA, specializing in Big Data Systems and Machine Learning

Arizona State University

📍 Online

### Associate of Science in Computer Science

📅 August 2024

- Graduated Summa Cum Laude with 3.9 GPA

Rio Salado College

📍 Tempe, AZ

## SKILLS

Java

Spring Boot

Hibernate

REST APIs

SQL

CI/CD Pipelines

AWS

Cloud-Native Development

Docker

Kubernetes

JavaScript

Automation

Agile Methodologies

GitHub

Cross-Functional Collaboration

Performance Tuning

Monitoring & Logging Solutions
