

ENOCH LINDEMAN

Software Engineer / Data Scientist
Java Full Stack Developer / Machine Learning Engineer

✉ enoch@lindeman.family ☎ (619) 333-8221
🌐 www.linkedin.com/in/enoch-lindeman 📍 San Diego, CA

EXPERIENCE

Software Engineer / Data Scientist

📅 Dec 2022 – Ongoing

by The Lindemans

📍 Glendale, AZ

- Developed full-stack Java and Python applications
- Built and maintained Java-based microservices with Spring Boot and REST APIs, improving system performance and scalability
 - Utilized Python for data analysis, machine learning algorithms, and data visualization to derive actionable insights

- Contributed to data science and machine learning projects
- Applied machine learning algorithms using TensorFlow to solve real-world data problems, improving model accuracy and performance
 - Collaborated with cross-functional teams to create predictive models for data-driven decision-making

Information Technology Support Specialist

📅 Jun 2022 – Ongoing

Tolleson Union High School District

📍 Avondale, AZ

- Developed software solutions and data models
- Designed and deployed data models for various data-driven applications using Python and SAS, enabling improved data analysis and reporting
 - Assisted in system migrations to cloud-based infrastructures, ensuring minimal downtime and enhanced scalability

- Enhanced system performance through automation
- Developed automation scripts using Python to streamline repetitive tasks, reducing operational overhead by 20%
 - Implemented data visualization dashboards using PowerBI and Tableau to monitor key performance metrics and optimize decision-making

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

📅 Expected May 2026

Arizona State University

📍 Online

- Relevant coursework: Data Science, Machine Learning, Software Development, Cloud Computing

Associate of Science in Computer Science

📅 August 2024

Rio Salado College

📍 Tempe, AZ

- Graduated Summa Cum Laude with 3.9 GPA

SUMMARY

Highly motivated software engineer and data scientist with a strong foundation in Java Full Stack Development, Python programming, and machine learning. Equipped with experience in the software development life cycle (SDLC) and knowledge of data analysis tools such as PowerBI, Tableau, and TensorFlow. Self-learner and technically inquisitive with a passion for building efficient and scalable solutions. Excellent communicator and team player, eager to contribute to cutting-edge projects in data science, machine learning, or software development.

TOOLS

Java
Spring Boot
REST APIs
PowerBI
TensorFlow
Statistics

SKILLS

Python
Microservices
Docker
Tableau
SAS
NLP
Java Full Stack
Machine Learning
Data Science
Software Development Life Cycle
Data Visualization
Cloud Computing
Text Mining
Collaborative Development
Project Management
Data Analysis
