

ENOCH LINDEMAN

Software Engineer / Back-End Developer Object-Oriented Programming (OOP) / Agile Development Expert

EXPERIENCE

Software Engineer / Backend Developer

Dec 2022 – Ongoing

Developed and maintained back-end systems for web applications

- Built RESTful APIs and integrated backend services using Python and JavaScript, ensuring efficient data handling and system scalability
- · Designed and implemented database structures to optimize data retrieval and storage, improving overall system performance

by The Lindemans **♀** Glendale, AZ

Worked collaboratively in an agile development environment

- Participated in code reviews, sprints, and daily standups to ensure timely and high-quality software delivery
- Utilized object-oriented programming (OOP) principles to create modular and maintainable software systems, reducing technical debt

Information Technology Support Specialist

Jun 2022 – Ongoing

Managed and maintained internal software applications

- Developed software tools to automate IT processes, improving system efficiency by 25%
- Troubleshot software issues and implemented bug fixes to maintain operational functionality of IT systems

Tolleson Union High School District

Avondale, AZ

Provided technical support and ensured system reliability

- Collaborated with the IT team to support network infrastructure, ensuring smooth operation of mission-critical applications
- · Assisted in developing technical documentation for software tools, improving knowledge sharing across the team

EDUCATION

Bachelor of Science in Computer Science

Arizona State University

Expected May 2026

Online

Relevant coursework: Software Development, Object-Oriented Programming, Web Development, Agile Methodologies

Associate of Science in Computer Science

August 2024

Rio Salado College

♀ Tempe, AZ

Graduated Summa Cum Laude with 3.9 GPA

SUMMARY

Software Engineer with a strong background in back-end web development, object-oriented programming (OOP), and full-stack software development. Proficient in building scalable web applications using modern programming languages frameworks. Experienced in agile development methodologies and problem-solving, with a track record of delivering high-quality software solutions. Holds a Bachelor's degree in Computer Science.
