

ENOCH LINDEMAN

Technology Support Specialist / AI ML Developer Cofounder & Owner, by The Lindemans, LLC

in www.linkedin.com/in/enoch-lindeman San Diego, CA

EXPERIENCE

Information Technology Support Specialist

Jun 2022 – Ongoing

Managed large-scale deployment of 3,000+ devices

- Led support for high school campus, ensuring infrastructure uptime and scalability for seamless operations
- Implemented process automation to streamline support, reducing response times by 30%

Tolleson Union High School District

Avondale, AZ

Developed Microsoft Power App for 14,000 users

- · Automated data requests with O365 and SharePoint, cutting information retrieval time by 90%
- Integrated cloud solutions to improve scalability and data accessibility

by The Lindemans

♀ Glendale, AZ

Dec 2022 – Ongoing

Owner & Software Developer

Mission Technology Specialist

Developed personalized wellness app with AI integration

- Focused on deploying AI-driven solutions for chronic illness management with end-user feedback
- Leveraged REST APIs, cloud services, and containerization for development scalability

Built automated CI/CD pipelines

- Reduced deployment overhead by 80% using cloud-based solutions like GitHub Actions and Docker
- · Optimized app development with process automation, accelerating development time by 30%

The Church of Jesus Christ of Latter-Day Saints

Arizona State University

Online

Managed transition to remote infrastructure

- Supported deployment of virtual platforms for over 3,000 users and devices
- · Automated manual processes, significantly improving efficiency and reducing operational costs

Led AI-enhanced ad campaign development

 Improved audience targeting and engagement using AI models, contributing to a successful campaign

EDUCATION

May 2020 – May 2022

Bachelor of Science in Technological Entrepreneurship and Management

Expected May 2026

• Specializing in AI and Machine Learning frameworks

• 4.0 GPA

♀ Syracuse, NY

SKILLS

AI ML Infrastructure enthusiast focused on optimizing technology

improving functionality and scalability of AI operations, with

a deep understanding of cloud platforms, containerization, and
