San Diego, CA

SUMMARY

Backend Engineer with over five years of experience designing and building scalable backend Proficient in Go, API design, and service-oriented architectures. systems. Experienced in deploying cloud-based solutions with Docker and Kubernetes, and managing databases such as Postgres and MongoDB. Strong collaborator with a focus on delivering reliable, high-performance systems that align with business needs.

EXPERIENCE

Backend Developer / Infrastructure Engineer

by The Lindemans, LLC Remote

Dec 2022 – Ongoing

Built and optimized backend APIs and microservices using Go

- Designed and managed relational and NoSQL databases, including Postgres and MongoDB.
- Orchestrated data flows across backend systems, ensuring seamless integration.

Deployed cloud applications with Docker and AWS for scalability and reliability

- Developed automated test suites to ensure code quality and system stability.
- Collaborated with cross-functional teams to align technology solutions with business objectives.

Technology Support Specialist

Iun 2022 - Ongoing

Tolleson Union High School District

Supported infrastructure and backend development in a fast-paced environment

- Managed and optimized databases, ensuring high availability and performance.
- Worked with cross-functional teams to solve complex technical challenges.

Deployed and maintained key product features to meet operational demands

- Troubleshot application issues and resolved bugs in collaboration with the engineering
- Contributed to product documentation and process improvements for better team alignment.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management Expected May 2026

Arizona State University

Online

• 4.0 GPA | Coursework includes API Design, Cloud Infrastructure, and Microservices Development.

Associate of Science in Computer Science

Rio Salado College

♀ Tempe, AZ

August 2024

- Graduated Summa Cum Laude with 3.9 GPA.
- · Specialized in Backend Systems, Cloud Technologies, and Database Management.

SKILLS

Go / Microservices

API Design / Cloud Infrastructure

Postgres / MongoDB

Docker / Kubernetes

Terraform / AWS

Automated Testing

GraphQL / gRPC Service-Oriented Architecture
