in www.linkedin.com/in/enoch-lindeman ♀ San Diego, CA

SUMMARY

Cloud Solutions Architect with over 5 years of experience in AWS cloud computing, security best practices, and infrastructure design. Expertise in leading technical engagements, consulting, and designing scalable, secure cloud solutions. Passionate about helping organizations, particularly in healthcare, leverage cloud technologies to drive innovation and improve patient and clinician experiences.

EXPERIENCE

Owner & Cloud Solutions Architect

by The Lindemans

Glendale, AZ

math Dec 2022 – Ongoing

Designed and implemented AWS cloud solutions

- Led the design, development, and deployment of cloud-based infrastructure using AWS services, including EC2, S3, RDS, and CloudFront
- Consulted with clients in the healthcare industry to design secure cloud architectures compliant with HIPAA and other regulatory standards
- Conducted deep-dive technical discussions on cloud computing, security best practices, and system integration

Provided technical leadership and consulting

- Led architectural reviews and collaborated with cross-functional teams to define cloud architecture and security strategies
- Developed and maintained technical documentation, including system architecture diagrams and security policies
- Delivered technical presentations to clients and stakeholders, educating them on AWS technologies and best practices

Information Technology Support Specialist

Jun 2022 – Ongoing

Tolleson Union High School District

Avondale, AZ

Led cloud integration projects

- Designed and implemented cloud-based infrastructure using AWS, ensuring secure and scalable solutions for data and application hosting
- Led projects to automate cloud-based workflows and services, improving operational efficiency and reducing costs
- Managed system security and compliance
- Ensured compliance with security standards and best practices, including multi-factor authentication and data encryption
- Conducted security assessments and audits of cloud environments to identify and mitigate risks

Mission Technology Specialist

∰ May 2020 – May 2022

The Church of Jesus Christ of Latter-Day Saints

Syracuse, NY

Led cloud-based system transition

- Transitioned organization's technology infrastructure to AWS, ensuring seamless integration of systems and secure data storage
- Provided thought leadership and best practices on cloud security, data management, and compliance for large-scale deployments

Collaborated with stakeholders and teams

- Worked with senior leadership and technical teams to design cloud strategies that aligned with organizational goals and security requirements
- Led workshops and training sessions to upskill team members in cloud technologies and infrastructure management

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

Arizona State University

Online

Expected May 2026

• 4.0 GPA, focused on cloud computing, security practices, and enterprise systems architecture

Associate of Science in Computer Science

August 2024

Rio Salado College

♀ Tempe, AZ

• Graduated Summa Cum Laude with 3.9 GPA, specializing in cloud computing, data security, and systems engineering

Graduated Summa cum Laude with 3.9 GPA, specializing in cloud computing, data security, and systems engineering

SKILLS

AWS Services (EC2, S3, RDS, CloudFront) Cloud Architecture HIPAA Compliance Security Best Practices System Integration
