SUMMARY

Senior Developer with expertise across the full Software Development Life Cycle (SDLC), specializing in PowerBuilder development and database integration. Experienced in agile development, troubleshoot and application modernization. Skilled in managing both operational support and development projects, with a focus on delivering secure, scalable software solutions.

EXPERIENCE

Software Developer
by The Lindemans, LLC

📅 Dec 2022 – Ongoing   📍 Remote

Managed development projects from requirements gathering to deployment
- Collaborated with business analysts to define software requirements and align solutions with business needs.
- Provided documentation for peers and testers, streamlining testing efforts and release management.

Implemented secure coding practices and managed source control
- Used Git for version control and managed deployments to ensure smooth releases.
- Performed troubleshooting and routine maintenance on legacy applications.

Technology Support Specialist
Tolleson Union High School District

📅 Jun 2022 – Ongoing   📍 Remote

Developed and maintained software solutions to meet operational needs
- Resolved tickets and implemented both minor bug fixes and major enhancements.
- Collaborated with third-party vendors to communicate complex business rules effectively.

Modernized and optimized existing applications
- Participated in agile development cycles, contributing to sprint planning and code reviews.
- Maintained system documentation to aid contractors and vendors in following business logic.
