in www.linkedin.com/in/enoch-lindeman 📍 San Diego, CA

SUMMARY

Junior Software Development Engineer with experience in **Python, Django, and React** for building scalable web applications. Skilled in **SciPy, NumPy, and Pandas** for data manipulation and scientific computing. Familiar with **AWS cloud environments**, version control systems like **Git**, and frontend frameworks such as **Next.js**. Enthusiastic about contributing to innovative projects in collaborative environments while continuously developing technical expertise.

EXPERIENCE

Junior Software Developer / Backend Developer
by The Lindemans

📅 Dec 2022 – Ongoing 📍 San Diego, CA

Developed and maintained web applications using Python and Django
- Built RESTful APIs to connect frontend React components with Django backend services.
- Improved application performance by 20

Collaborated on full-stack projects with React and Next.js
- Integrated backend APIs with responsive frontends, enhancing the user experience.
- Managed deployments to AWS using S3 and Lambda, reducing infrastructure costs by 15

Technology Support Specialist / Software Developer
Tolleson Union High School District

📅 Jun 2022 – Ongoing 📍 San Diego, CA

Provided software maintenance and troubleshooting services
- Used **Python and Pandas** to automate data processing tasks, reducing manual workload by 30
- Developed internal web tools using **Django** to streamline administrative tasks and improve team collaboration.

Implemented version control best practices with Git
- Led code reviews and managed Git repositories for collaborative development projects.
- Introduced Agile practices to enhance sprint planning and delivery timelines.

Mission Technology Specialist
The Church of Jesus Christ of Latter-Day Saints

📅 May 2020 – May 2022 📍 Syracuse, NY

Developed software tools for managing distributed operations
- Created custom dashboards with **SciPy and NumPy** to monitor and analyze operational metrics.
- Integrated cloud-based services using AWS Lambda to automate key workflows.

Contributed to troubleshooting and system optimization
- Collaborated with cross-functional teams to identify and resolve application issues.
- Documented best practices for system management and software deployment.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management
Arizona State University

📅 Expected May 2026 📍 Online

- Coursework includes Web Development, Cloud Computing, and Software Engineering.

Associate of Science in Computer Science
Rio Salado College

📅 August 2024 📍 Tempe, AZ

- Graduated Summa Cum Laude, GPA: 3.9
- Specialized in Full-Stack Development, Data Science, and Object-Oriented Programming.

SKILLS

Python | Django | React | Next.js | SciPy / NumPy / Pandas | AWS (S3, Lambda, API Gateway) | RESTful APIs | Git | Agile Methodologies
MySQL / PostgreSQL
