SUMMARY

A highly motivated software engineer dedicated to deploying innovative machine learning solutions at scale. Experienced in developing end-to-end machine learning systems, from API integration with NVIDIA Triton Inference Server to optimizing workflows for large-scale model inference, I am committed to building technology that drives operational efficiency and real-world impact.

EXPERIENCE

Information Technology Support Specialist
Tolleson Union High School District
📅 Jun 2022 – Ongoing   📍 Avondale, AZ

Led deployment of 3,000 devices across campus
- First point of contact for all technical issues regarding internet-connected devices.
- Optimized device configuration processes, reducing network troubleshooting time by 30%.

Developed district-wide support app for 14,000 users
- Built a Microsoft Power App with O365 and SharePoint integrations, reducing user information requests by 90%.
- Automated data processing workflows, cutting response times by 50%.

Owner & Software Developer
by The Lindemans
📅 Dec 2022 – Ongoing   📍 Glendale, AZ

Developed personalized wellness app using Python & Rust
- Integrated REST APIs and focused on cross-platform performance optimization.
- Collaborated with target users for iterative design, with an alpha release set for 2025.

Automated CI/CD tools to accelerate development
- Deployed automated pipelines, reducing development overhead by 80%.
- Applied Agile methodologies to improve project turnaround by 30%.

Mission Technology Specialist
The Church of Jesus Christ of Latter-Day Saints
📅 May 2020 – May 2022   📍 Syracuse, NY

Oversaw 3,000+ users transitioning to remote platforms
- Led setup of remote teaching infrastructure using cloud solutions.
- Provided technical guidance for transitioning to virtual environments.

Automated repetitive administrative tasks
- Developed scripts to streamline weekly program production, cutting down manual effort by 60%.
- Created a decentralized system for tracking volunteer hours and service opportunities.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management
Arizona State University
📅 Expected May 2026   📍 Online
- Current GPA: 4.0
- Coursework includes Machine Learning, Data Science, and Cloud Computing.

Associate of Science in Computer Science
Rio Salado College
📅 August 2024   📍 Tempe, AZ
- Graduated Summa Cum Laude, GPA: 3.9
- Focus on software development, data structures, and cybersecurity.

SKILLS

Python | Rust | Tensorflow | PyTorch | NVIDIA Triton Inference Server | REST APIs | Machine Learning | RAG Frameworks | Microsoft Power Apps | Cloud Integration | CI/CD Pipelines | Agile Development | Data Analysis | Full-Stack Development | Edge Software Development | Process Automation | Technical Writing | Cross-Functional Collaboration | End-User Support | Network Management | Version Control
