Hiring Management Team
Vast.ai

To whom it may concern:

I am excited to apply for the Support Engineer position at Vast.ai. With experience in Linux systems, cloud computing, and AI workloads, I am eager to contribute to Vast.ai's mission of making AI computing accessible and affordable. My background in providing customer support, troubleshooting complex issues, and collaborating with development teams aligns well with the requirements of this role.

In my role as an IT Support Specialist at Tolleson Union High School District, I supported Linux systems, resolved cloud infrastructure issues, and provided technical assistance to end-users. I have experience troubleshooting performance problems, managing on-call rotations, and maintaining documentation to ensure consistent service quality. I am passionate about AI and have hands-on experience supporting AI workloads in cloud environments.

As a Software Developer at by The Lindemans, I developed cloud-based AI solutions, focusing on GPU optimization and resource management. I provided guidance to users on running AI workloads effectively, creating user guides and tutorials to enhance customer understanding. My strong problem-solving skills and ability to work independently make me well-suited for this fast-paced, dynamic role.

I am particularly excited about this opportunity because of Vast.ai's commitment to distributing AI computing for the benefit of humanity. My technical expertise, customer-focused approach, and passion for AI align well with your team's goals.

I would welcome the opportunity to discuss how my experience aligns with the Support Engineer role at Vast.ai. Thank you for considering my application. I look forward to the possibility of contributing to your team and supporting your mission.

Respectfully,
Enoch Lindeman
