SUMMARY

Web Developer and Software Engineer with expertise in custom application development, system engineering, and cloud integration. Experienced in designing, coding, and testing applications using Python, Java, PHP, SQL, and JavaScript. Skilled in developing cross-platform applications with a focus on user experience, scalability, and performance.

EXPERIENCE

Software Engineer
Tolleson Union High School District
📅 Jun 2022 – Ongoing 📍 Avondale, AZ

Developed full-stack web applications for educational systems
- Designed and coded cross-platform web applications using Python, JavaScript, and REST APIs
- Integrated relational databases (SQL) and NoSQL databases (MongoDB) to handle large-scale data efficiently

Led system engineering efforts for cloud-integrated projects
- Developed and tested applications according to functional requirements, ensuring scalability and user-friendly design
- Collaborated with product managers to gather user feedback and implement desired features and bug fixes

Owner & Software Developer
by The Lindemans
📅 Dec 2022 – Ongoing 📍 Glendale, AZ

Developed and deployed custom web applications
- Built customer-facing and internal web applications with Node.js, Python, and Laravel, ensuring cross-browser compatibility and performance
- Designed RESTful API integrations and cloud-based solutions for seamless data exchange

Led agile development and deployment of CI/CD pipelines
- Collaborated with designers and system engineers to develop scalable, user-friendly web solutions
- Applied version control (Git) and ensured quality assurance testing before deployment

Mission Technology Specialist
The Church of Jesus Christ of Latter-Day Saints
📅 May 2020 – May 2022 📍 Syracuse, NY

Managed IT infrastructure and application development for 3,000+ users
- Developed automation scripts and deployed web-based applications to streamline user management and support
- Provided ongoing system maintenance and bug fixes, ensuring smooth transitions during remote operations

Led cross-functional team in transitioning to a virtual environment
- Integrated cloud services and supported mobile and desktop applications for remote work and communication

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management
Arizona State University
📅 Expected May 2026 📍 Online

- Specializing in software development, project management, and cloud technologies
- 4.0 GPA

TOOLS

Python	Java
PHP	JavaScript
Node.js	Laravel
SQL/NoSQL	MongoDB
SOAP	REST APIs
CSS	HTML
JSON	XML
Oracle Cloud	Adobe

PROGRAMS

Google Workspace	Microsoft Office365
Visual Studio Code	GitHub
VMWare VirtualBox	Anaconda
Oracle Commerce Cloud	
Oracle Integration Cloud	

SKILLS

Web Development	System Engineering
Cloud Integration	API Development
Application Testing	
Cross-Browser Compatibility	
Relational Databases	NoSQL Databases
SaaS Platforms	Agile Methodologies

KNOWLEDGE

Project Management	Debugging
Cross-Functional Collaboration	
Change Control Standards	
Version Control	Technical Documentation

Authorized to work in the US for any employer
