ENOCH LINDEMAN

Java Developer / Software Engineer
Cofounder & Owner, by The Lindemans, LLC

✉ enoch@lindeman.family 📞 (619) 333-8221
in www.linkedin.com/in/enoch-lindeman 📍 San Diego, CA

SUMMARY

Skilled Java Developer with extensive experience in building robust, scalable software systems. Proficient in using Java frameworks like Spring Boot and experienced with Agile methodologies, Kubernetes, and cloud-based environments. Adept at developing, testing, and maintaining systems while collaborating with cross-functional teams to deliver mission-critical applications.

EXPERIENCE

Information Technology Support Specialist

📅 Jun 2022 – Ongoing

Tolleson Union High School District
📍 Avondale, AZ

Developed and maintained software tools using Java
- Created applications for internal use, ensuring they adhered to strict security and quality standards.
- Utilized Agile methodologies and Test-Driven Development (TDD) to improve system performance by 25%.

Led deployment of 3,000 devices with cross-platform integration
- Wrote integration scripts and ensured seamless communication between devices and network systems.
- Debugged and maintained Java applications, reducing system errors by 30%.

Owner & Software Developer

📅 Dec 2022 – Ongoing

by The Lindemans
📍 Glendale, AZ

Developed a personalized wellness app using Java and Spring Boot
- Designed and implemented a REST API for data integration with external services, using Spring Boot and Java17.
- Utilized Kubernetes for containerized deployment, ensuring scalability and ease of maintenance.

Implemented CI/CD pipelines and Agile practices
- Collaborated with a cross-functional team in an Agile environment to deliver weekly updates and resolve issues.
- Automated the deployment process using Docker and Helm charts, reducing deployment time by 50%.

Mission Technology Specialist

📅 May 2020 – May 2022

The Church of Jesus Christ of Latter-Day Saints
📍 Syracuse, NY

Supported development and deployment of Java-based systems
- Assisted in the development of software for managing remote users and devices.
- Ensured secure and reliable software delivery using Agile principles and Java technologies.

Maintained systems and performed troubleshooting
- Debugged complex system issues involving multiple components and technologies.
- Improved system uptime by implementing robust monitoring and logging strategies using ELK stack.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

📅 Expected May 2026

Arizona State University
📍 Online

- Current GPA: 4.0
- Coursework includes Java, Spring Boot, and software architecture for scalable applications.

Associate of Science in Computer Science

📅 August 2024

Rio Salado College
📍 Tempe, AZ

- Graduated Summa Cum Laude, GPA: 3.9
- Focused on software engineering principles, including object-oriented programming and systems design.

SKILLS

Java17 | Spring Boot | JUnit | Maven | Docker | Kubernetes | CI/CD Pipelines | Linux | Agile Development | Test-Driven Development (TDD)

Helm | REST APIs | PostgreSQL | RabbitMQ | Redis | Cross-Functional Collaboration
