EXPERIENCE

Data Center Operations Specialist / IT Infrastructure Support
by The Lindemans
📅 Dec 2022 – Ongoing 📍 Glendale, AZ

Maintained data center operations and infrastructure systems
- Managed server maintenance, system upgrades, and cloud migrations for on-prem and cloud environments (Azure, Office 365)
- Administered OKTA for user authentication and application access, providing seamless integration with existing systems

Provided network and firewall support across the organization
- Configured and managed Cisco Meraki, Dell, and Brocade switches, including VLANs, routing, and access control lists
- Monitored and implemented Palo Alto firewall security policies, optimizing security across LAN/WAN networks and VPN technologies

Infrastructure Engineer / Systems Administrator
Tolleson Union High School District
📅 Jun 2022 – Ongoing 📍 Avondale, AZ

Supported and maintained virtualized environments
- Managed VMware vSphere for provisioning and managing virtual machines, ensuring fault tolerance and reliable networking
- Assisted with the installation, upgrade, and troubleshooting of lab PCs connected to scientific equipment, ensuring high system availability

Resolved infrastructure-related issues and provided user support
- Handled level 3 infrastructure tickets related to networking, servers, and hardware, reducing system downtime by 20%
- Supported videoconferencing applications (Zoom and MS Teams) and WiFi access points, ensuring smooth operations for end users

EDUCATION

Associate of Science in Computer Science
Rio Salado College
📅 August 2024 📍 Tempe, AZ
- Graduated Summa Cum Laude with 3.9 GPA

CERTIFICATIONS

CCNA MCSE

VMware Certified Professional (VCP) OKTA Certified

SUMMARY

Data Center Operations Specialist with over 6 years of experience in managing infrastructure, cloud services, and network operations. Skilled in maintaining Windows on-prem and cloud environments, administering VMware vSphere, and supporting OKTA authentication and application access. Expertise in Cisco Meraki networking, RADIUS authentication, and LAN/WAN networks. Proven ability to troubleshoot complex technical problems and manage cloud migrations. Certified with CCNA and MCSE, with hands-on experience in firewall security and videoconferencing support.
