ENOCH LINDEMAN

Senior Network Systems Administrator / IT Specialist

✉ enoch@lindeman.family   📞 (619) 333-8221
in www.linkedin.com/in/enoch-lindeman   📍 San Diego, CA

SUMMARY

Experienced Senior Network Systems Administrator skilled in network design, implementation, and troubleshooting within complex environments. Dedicated to ensuring optimal network performance, security, and efficient operations in support of enterprise-wide connectivity.

EXPERIENCE

Information Technology Support Specialist
Tolleson Union High School District
📅 Jun 2022 – Ongoing   📍 Avondale, AZ

Managed complex network infrastructure
- Designed, implemented, and maintained LAN and Wi-Fi networks, ensuring secure and reliable connectivity for over 3,000 users
- Configured and maintained network devices (e.g., switches, routers, firewalls), ensuring consistent performance and minimal downtime
- Utilized monitoring tools for proactive network analysis, identifying and resolving performance issues to enhance network reliability

Enhanced network security and documentation
- Deployed multi-factor authentication and secure VPN access, reducing security incidents by 40
- Developed and maintained network diagrams and system documentation, supporting compliance and operational transparency
- Implemented firmware updates and security patches, ensuring up-to-date protection across network infrastructure

Owner & Software Developer
by The Lindemans
📅 Dec 2022 – Ongoing   📍 Glendale, AZ

Developed robust network solutions for internal projects
- Managed network infrastructure setup for development and testing environments, including virtualization and cloud integrations
- Configured network connections to support large-scale data operations and storage solutions
- Supported DNS and DHCP configuration for internal networks, ensuring efficient IP management and resource allocation

Implemented network performance optimization
- Analyzed network traffic and optimized routing, improving data transfer speeds by 25
- Configured VPNs for secure remote access, supporting distributed development teams
- Designed solutions for cloud infrastructure, enhancing operational scalability and security

Mission Technology Specialist
The Church of Jesus Christ of Latter-Day Saints
📅 May 2020 – May 2022   📍 Syracuse, NY

Supported global network infrastructure
- Maintained and optimized WAN connections across multiple locations, ensuring seamless remote communication and collaboration
- Configured network hardware for secure and efficient operations, supporting large-scale transitions to remote work
- Conducted regular network audits, identifying vulnerabilities and implementing remediation measures

Developed technical resources and training
- Created comprehensive network documentation and guides, improving user understanding of network functionalities
- Trained users and IT personnel on network security protocols and troubleshooting procedures, enhancing system performance and user proficiency

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management
Arizona State University
📅 Expected May 2026   📍 Online
- Focused on Network Systems Design, Cloud Computing, and IT Security; currently maintaining a 4.0 GPA

Associate of Science in Computer Science
Rio Salado College
📅 August 2024   📍 Tempe, AZ
- Graduated Summa Cum Laude with 3.9 GPA; coursework included Network Design, System Administration, and Database Management

SKILLS

Network Design	Routing & Switching	LAN/WAN/SDWAN	Firewall Management	VPN Technologies	802.1x Authentication
Virtualization (VMWare, Oracle Cloud)	Network Monitoring	TCP/IP Protocols	DNS/DHCP	Cloud Networking	Network Security
System Documentation	Cisco IOS/NX-OS	Palo Alto PAN-OS	ArubaOS
