ENOCH LINDEMAN

Senior Backend Software Engineer / Cloud Solutions Specialist

✉ enoch@lindeman.family ☎ (619) 333-8221
in www.linkedin.com/in/enoch-lindeman 📍 San Diego, CA

SUMMARY

Senior Backend Software Engineer with expertise in microservices architecture, cloud platforms, and secure backend development. Skilled in C, .NET Core, and cloud integration, with a strong focus on modernizing legacy systems. Proven ability to mentor teams, optimize performance, and ensure high availability of mission-critical applications.

EXPERIENCE

Technology Support Specialist
Tolleson Union High School District
📅 Jun 2022 – Ongoing 📍 Remote

Led the development of microservices and RESTful APIs using C and .NET Core
- Built scalable services to enable real-time data exchange across systems, improving response times by 40%.
- Collaborated with cross-functional teams to modernize legacy codebases using Azure cloud services.

Implemented CI/CD pipelines and optimized cloud operations
- Designed automated CI/CD workflows to streamline deployments and reduce downtime.
- Optimized SQL databases to enhance performance and data retrieval speeds.

Owner & Software Developer
by The Lindemans, LLC
📅 Dec 2022 – Ongoing 📍 Remote

Developed cloud-integrated applications with Azure and CI/CD pipelines
- Designed backend services using C and RESTful APIs to enable seamless data exchange between mobile and cloud systems.
- Implemented database optimization techniques, ensuring high availability and system reliability.

Mentored junior developers and contributed to team growth
- Provided technical guidance and code reviews, ensuring adherence to best practices and secure coding standards.
- Collaborated across teams to define technical strategies and roadmaps aligned with business goals.

Mission Technology Specialist
The Church of Jesus Christ of Latter-Day Saints
📅 May 2020 – May 2022 📍 Remote

Designed microservices for large-scale remote operations
- Managed and optimized cloud infrastructure to support global remote workflows.
- Automated processes using Python and CI/CD tools, reducing operational overhead by 30%.

Implemented secure software practices and monitored system performance
- Built dashboards to track system performance and proactively address issues.
- Ensured secure data handling practices in compliance with privacy policies.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management
Arizona State University
📅 Expected May 2026 📍 Online

- 4.0 GPA | Coursework includes Software Development, Cloud Computing, and Data Structures.

Associate of Science in Computer Science
Rio Salado College
📅 August 2024 📍 Tempe, AZ

- Graduated Summa Cum Laude with 3.9 GPA.
- Specialized in software engineering, cloud platforms, and system design.

SKILLS

| C | .NET Core | RESTful APIs | Azure Cloud Services | CI/CD Pipelines | Database Optimization | Agile Methodologies | Mentoring & Leadership |
| Microservices Architecture | SQL Server | PostgreSQL | HIPAA Compliance | Cloud Integration | Python |
