SUMMARY

Full-Stack Developer with over five years of experience leading platform development, technical strategy, and scaling secure cloud infrastructures. Expert in JavaScript (React), Python, and SQL with proven success in deploying AI/ML-powered solutions using cloud providers such as AWS and GCP. Adept at building and leading high-performing teams with a passion for innovation, ownership, and technical excellence. Excited to contribute to Gratia's mission by delivering a scalable platform that empowers users and drives growth.

EXPERIENCE

Full-Stack Developer / Technical Lead
by The Lindemans, LLC

📅 Dec 2022 – Ongoing 📍 Remote

Led the development of cloud-based applications using JavaScript, React, and Python

- Designed, developed, and deployed scalable solutions for subscription-based platforms using AWS.
- Integrated AI/ML models (OpenAI, HuggingFace) to enhance functionality and user experience.

Managed cross-functional teams to align technical strategy with business goals

- Built and led development teams, fostering a collaborative environment to deliver high-impact projects.
- Ensured platform security and compliance with industry standards, focusing on data privacy and performance optimization.

Software Engineer / Cloud Developer
Tolleson Union High School District

📅 Jun 2022 – Ongoing 📍 Remote

Developed and deployed AI-powered applications in a cloud environment

- Utilized AWS and GCP to build and deploy secure, high-performance applications.
- Collaborated with AI teams to integrate machine learning models into existing platforms.

Optimized CI/CD processes and automated workflows for rapid deployment

- Streamlined release processes using Docker, Jenkins, and GitHub, reducing time to production by 40%.
- Focused on scaling solutions to meet increased user demands, ensuring platform reliability.

EDUCATION

Master of Science in Computer Science
Arizona State University

📅 Expected May 2026 📍 Online

- Specializing in AI, Cloud Infrastructure, and Data Security.

Bachelor of Science in Technological Entrepreneurship and Management
Arizona State University

📅 May 2022 📍 Online

- Graduated with honors; focused on Full-Stack Development, Machine Learning, and Cloud Technologies.

SKILLS

Full-Stack Development (React, JavaScript, Python)   Cloud Infrastructure (AWS, GCP)   AI/ML Tools (OpenAI, HuggingFace)   SQL / NoSQL Databases

CI/CD Automation (Docker, Jenkins)   Security Scalability   Team Leadership / Technical Strategy
