SUMMARY

Principal Full Stack Engineer with over 7 years of experience in designing and building scalable software solutions, specializing in **React** for front-end development and **Java**, **Python**, and **API development** for back-end services. Experienced in leading cross-functional teams, managing system integrations, and delivering customized software solutions for global enterprises. Passionate about driving innovation, fostering team collaboration, and aligning technical solutions with business goals.

EXPERIENCE

Principal Full Stack Engineer
📅 Jun 2022 – Ongoing

Tolleson Union High School District
📍 San Diego, CA

Led development and architecture for full-stack applications
- Architected and developed highly dynamic user interfaces using **React**, improving user engagement and system usability by 40%.
- Designed, implemented, and maintained **RESTful APIs** for seamless integration with internal and third-party systems.

Collaborated with cross-functional teams and stakeholders
- Led technical discovery sessions with clients to define requirements, ensuring the delivery of custom, scalable software solutions.
- Provided mentorship to junior developers, enhancing team productivity and adherence to best practices.

Owner & Full Stack Developer
📅 Dec 2022 – Ongoing

by The Lindemans
📍 San Diego, CA

Developed and maintained full-stack web applications for e-commerce clients
- Built responsive frontend components using **React** and implemented backend services in **Java** and **Python**, enhancing system performance and scalability.
- Designed database schemas and optimized queries for **SQL** and **NoSQL** databases, improving data retrieval times by 25%.

Oversaw CI/CD pipeline integration and deployment automation
- Integrated **Git** version control and set up **CI/CD pipelines** to automate testing and deployment, reducing release cycle time by 35%.
- Provided ongoing support and troubleshooting for post-deployment issues, ensuring high uptime and reliability for all applications.

Mission Technology Specialist
📅 May 2020 – May 2022

The Church of Jesus Christ of Latter-Day Saints
📍 Syracuse, NY

Developed backend systems for cross-functional data applications
- Created APIs and backend services for real-time data management using **Java** and **Python**.
- Improved integration between services by developing middleware and ensuring seamless communication across platforms.

Led system integrations and client communications
- Collaborated with internal stakeholders and client teams to deliver solutions aligned with business goals and system requirements.
- Facilitated technical sessions to ensure understanding of system architecture and deliverables.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management
📅 Expected May 2026

Arizona State University
📍 Online

- Current GPA: 4.0
- Relevant coursework includes full-stack web development, database architecture, and cloud computing.

Associate of Science in Computer Science
📅 August 2024

Rio Salado College
📍 Tempe, AZ

- Graduated Summa Cum Laude, GPA: 3.9
- Specialized in full-stack development, cloud infrastructure, and API design.

SKILLS

React | Java | Python | Full-Stack Development | RESTful APIs | SQL & NoSQL Databases | CI/CD Pipelines | Cloud Infrastructure (AWS)

Cross-Functional Collaboration | Frontend Frameworks | Mentorship & Leadership | Agile Methodologies
