ENOCH LINDEMAN

IT Systems Engineer / Technology Specialist

✉ enoch@lindeman.family　　📞 (619) 333-8221
in www.linkedin.com/in/enoch-lindeman　　📍 San Diego, CA

SUMMARY

IT Systems Engineer with expertise in deploying and managing Microsoft and Azure technologies in multi-domain environments. Skilled in cloud migrations, infrastructure strategy, and automation using PowerShell. Committed to optimizing technology solutions for business enablement, ensuring high performance and efficiency across on-premise and cloud systems.

EXPERIENCE

Information Technology Support Specialist
Tolleson Union High School District

📅 Jun 2022 – Ongoing　　📍 Avondale, AZ

Managed Microsoft and Azure-based infrastructure
- Supported Azure infrastructure, including VMs, virtual networks, and VPN gateways, enhancing system reliability and performance
- Administered Active Directory, Azure AD, and SSO in a complex multi-domain environment, improving security and access management

Implemented automation and system optimization
- Automated repeatable tasks using PowerShell, reducing manual workload and increasing operational efficiency by 30%
- Contributed to cloud migration initiatives, transitioning on-premise workloads to Azure, resulting in improved scalability

Owner & Software Developer
by The Lindemans

📅 Dec 2022 – Ongoing　　📍 Glendale, AZ

Developed cloud-based solutions for business operations
- Designed and managed cloud infrastructure, leveraging Azure VMs and virtual networks to ensure high availability and security
- Automated business processes and task workflows using PowerShell, increasing efficiency and reducing operational costs

Provided IT systems support and documentation
- Supported end-user devices, managing Microsoft Intune for device configuration and app deployment across multiple locations
- Documented system configurations, operational procedures, and created training materials for new team members

Mission Technology Specialist
The Church of Jesus Christ of Latter-Day Saints

📅 May 2020 – May 2022　　📍 Syracuse, NY

Managed network and cloud infrastructure
- Supported multi-site network operations, managing DNS, DHCP, and network devices like switches and access points
- Assisted with cloud infrastructure management, implementing Azure-based solutions to enhance remote work capabilities

Improved systems through strategic planning
- Contributed to IT strategy, focusing on capacity management, preventive maintenance, and performance optimization
- Enhanced documentation of IT processes, ensuring clear guidelines and continuity for operational support

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management
Arizona State University

📅 Expected May 2026　　📍 Online

- Current 4.0 GPA
- Coursework includes Cloud Infrastructure, Network Management, and Systems Optimization

Associate of Science in Computer Science
Rio Salado College

📅 August 2024　　📍 Tempe, AZ

- Graduated Summa Cum Laude with 3.9 GPA

SKILLS

Microsoft Azure　　Active Directory / Azure AD　　Cloud Migration　　PowerShell Automation　　Network Management (DNS, DHCP)　　VPN Gateways　　Office 365 Administration　　Microsoft Intune　　System Documentation　　Technical Support　　Infrastructure Strategy　　Troubleshooting　　Process Automation　　Performance Management
