Hiring Management Team
TurboTax Foundation - Intuit

To whom it may concern:

I am excited to apply for the Principal Engineer role at TurboTax Foundation. With over 12 years of experience leading full-stack software engineering teams and developing scalable cloud solutions, I am eager to bring my technical expertise and leadership skills to Intuit. My passion for building innovative products aligns perfectly with Intuit's mission of delivering high-quality customer experiences that empower millions of users each year.

In my current role at by The Lindemans, I have led cross-functional teams to develop and deploy SaaS solutions on **AWS** using **C++**, **Java**, and **Python**. I implemented **CI/CD pipelines** to streamline deployments, reducing release times by 40%. I also focused on empowering my team through mentoring and promoting Agile best practices, which resulted in improved productivity and developer satisfaction.

At Tolleson Union High School District, I managed distributed software engineering projects, working closely with product managers and designers to align engineering goals with product vision. I led the design and implementation of developer tools and infrastructure, enhancing testing, scalability, and performance across multiple platforms.

I am drawn to Intuit's commitment to innovation and growth. As a Principal Engineer, I look forward to collaborating with your talented engineering teams to build the next generation of platform capabilities. Thank you for your time and consideration. I look forward to the opportunity to contribute to TurboTax Foundation's success.

Respectfully,
Enoch Lindeman
